

[Dashboard Name] — Story Guide

Dashboard: [Dashboard Name] | **Pages:** [Page 1, Page 2, ...] | **Last updated:** [Date]

About this guide

[2-3 sentence overview of what story this dashboard tells. Mention the funnel structure and what each persona/user gets out of it.]

[Optional: 1-2 sentences of domain context — what is the business problem this dashboard solves, what is the relevant healthcare/business concept the reader needs to understand before reading the guide.]

The funnel:

- **Top** → [What question does the top of the dashboard answer?]
 - **Middle** → [What question does the middle answer?]
 - **Bottom** → [What question does the bottom answer?]
 - **Action** (*if applicable — for multi-page dashboards with a separate action page*) → [What outreach/operational question does this layer answer?]
-

Page 1: [Page Name]

Layer 1: [Layer name — e.g., "The headline" / "The risk position"]

[Widget group name — e.g., "KPI cards — risk summary"]

 *Insert: Screenshot of [specific widget or widget group].*

[1-2 sentence intro: what this widget group represents and how it should be read as a system.]

[Sub-section, if KPI row is split — e.g., "Row 1: The landscape"]

[Metric name 1]

[1-2 sentence definition in plain business language. What does this metric measure and what does it represent?]

Direction	Interpretation
Increasing	[What an increase means — positive / negative / context]
Decreasing	[What a decrease means — positive / negative / context]

[Metric name 2]

[Definition.]

Direction	Interpretation
Increasing	[Interpretation]
Decreasing	[Interpretation]

[Optional italic callout — connecting insight between metrics, or a key caveat.]

[Metric name 3]

[Definition.]

Direction	Interpretation
Increasing	[Interpretation]
Decreasing	[Interpretation]

[Second sub-section, if applicable — e.g., "Row 2: Performance metrics"]

[Metric name]

[Definition.]

Direction	Interpretation
Increasing	[Interpretation]
Decreasing	[Interpretation]

Reading the [widgets/cards] together

Pattern	Interpretation
[Combination pattern A]	[What this combination means]
[Combination pattern B]	[What this combination means]
[Combination pattern C]	[What this combination means]

[Next widget — e.g., "Volume distribution — donut charts and bar chart"]

 *Insert: Screenshot of [specific widget or widget group].*

[1-2 sentence intro to this widget group.]

[Sub-widget 1 name]

[Definition.]

[Sub-widget 2 name]

[Definition.]

How to read them together:

Pattern	Interpretation
[Pattern]	[Meaning]
[Pattern]	[Meaning]

[Optional italic callout — connecting insight or transition to the next layer.]

[1-2 sentences about where to go next based on what was observed.]

Layer 2: [Layer name — e.g., "The diagnosis"]

[Widget — e.g., "Payer/plan breakdown table"]

 *Insert: Screenshot of [specific widget].*

[1-2 sentence intro to what this widget does and why it sits at this layer.]

Key columns:

Column	What to look for
[Column name]	[What it measures and what to watch for]
[Column name]	[What it measures and what to watch for]
[Column name]	[What it measures and what to watch for]

Critical patterns:

Pattern	Interpretation
[Pattern]	[Meaning]
[Pattern]	[Meaning]

[Optional italic callout — most important insight or watch-out.]

[Trend lines widget]

 *Insert: Screenshot of trend line charts.*

[1-2 sentence intro — what the time dimension adds.]

[Trend chart 1 name]

[Definition. What it tracks.]

Pattern	Interpretation
[Pattern]	[Meaning]

[Trend chart 2 name]

[Definition.]

[Optional italic callout.]

[Trend chart 3 name]

[Definition.]

[Detail table — e.g., "Disposition / segmentation table"]

 *Insert: Screenshot of detail table.*

[1-2 sentence intro — what dimension this table introduces (observation window, attribution, model type, etc.).]

Column / row interpretations:

Column / segment	Definition	What to look for
[Item]	[Definition]	[Signal]
[Item]	[Definition]	[Signal]

Key patterns:

Pattern	Interpretation
[Pattern]	[Meaning]
[Pattern]	[Meaning]

[Clinical / categorical breakdown — e.g., "MDC / disease category bars"]

 *Insert: Screenshot of categorical bar charts.*

[1-2 sentence intro — what these charts collectively reveal.]

[Chart 1] — [What it ranks.]

[Chart 2] — [What it ranks.]

[Chart 3] — [What it ranks.]

Cross-reading the charts:

Pattern	Interpretation
Same category tops all charts	[Meaning]
Different categories lead different charts	[Meaning]
[Other pattern]	[Meaning]

Layer 3: [Bottom layer name — e.g., "The action"]

[Provider / facility / entity table 1]

 *Insert: Screenshot of widget.*

[1-2 sentence intro — what shifts at this layer (entity-level focus).]

Key columns:

Column	Definition	↑ Increasing	↓ Decreasing
[Column]	[Definition]	[Signal]	[Signal]
[Column]	[Definition]	[Signal]	[Signal]
[Column]	[Definition]	[Signal]	[Signal]

Reading patterns:

Pattern	Interpretation
[Pattern]	[Meaning]
[Pattern]	[Meaning]

[Provider / facility / entity table 2 — if applicable]

 *Insert: Screenshot of widget.*

[1-2 sentence intro.]

Key columns / what to look for:

Column / element	What to look for
[Item]	[Signal]
[Item]	[Signal]

[Visualization — e.g., scatter plot, recommendation table]

 *Insert: Screenshot of visualization.*

[1-2 sentence intro.]

How to read it:

Position / pattern	Interpretation
[Position]	[Meaning]
[Position]	[Meaning]

[Output / drill-down element — e.g., patient lists, export links]

[1-2 sentence intro — describing the actionable output that closes the funnel.]

Element	Purpose
[Link / button]	[What it does]
[Link / button]	[What it does]

Page 2: [Action / second page name — if applicable]

[1-2 sentence intro — what shift in framing this page represents (e.g., from "what is the problem" to "who do we target").]

[Widget 1]

 *Insert: Screenshot of widget.*

[Definition / intro.]

Key columns / segments:

Column / segment	Definition	How to read
[Item]	[Definition]	[Signal]
[Item]	[Definition]	[Signal]

[Optional italic callout — most important takeaway.]

[Segmentation charts]

🖼️ Insert: Screenshot of segmentation charts.

[1-2 sentence intro — what these segmentations enable.]

[Segmentation chart 1]

Segment	Interpretation
[Segment]	[Meaning + outreach implication]
[Segment]	[Meaning + outreach implication]

[Segmentation chart 2]

Segment	Interpretation
[Segment]	[Meaning + outreach implication]
[Segment]	[Meaning + outreach implication]

[Segmentation chart 3]

Segment	Interpretation
[Segment]	[Meaning + outreach implication]

[Optional callout if there's a special framework / threshold table needed — e.g., risk bucket definitions.]

[Geographic / access charts]

🖼️ Insert: Screenshot of geographic/access widgets.

[Brief intro.]

[Chart 1]

[1-line description.]

[Chart 2]

Segment	Interpretation
[Segment]	[Meaning]
[Segment]	[Meaning]

[Final ranking / prioritization widget]

 *Insert: Screenshot of widget.*

[1-2 sentence intro — what operational decision this widget supports.]

Pattern	Interpretation
[Pattern]	[Meaning]
[Pattern]	[Meaning]

How the funnel connects

Layer	Section	Question it answers
Top	[Widget name]	[Question]
Top	[Widget name]	[Question]
Mid	[Widget name]	[Question]
Mid	[Widget name]	[Question]
Mid	[Widget name]	[Question]
Mid	[Widget name]	[Question]
Bottom	[Widget name]	[Question]
Bottom	[Widget name]	[Question]
Bottom	[Widget name]	[Question]
Action	[Widget name]	[Question]

Layer	Section	Question it answers
Action	[Widget name]	[Question]
Action	[Widget name]	[Question]

Each layer answers the question the previous one raises. [Page 1] identifies and diagnoses. [Page 2 / Action layer] converts diagnosis into [targeting strategy / operational decision / outreach plan].
